

Urinal Divider wall

Art. no. MXUW-04
 GTIN 7393069020779

Description

Urinal divider in stainless steel, satin finish.
 Supplied complete with concealed fixing.

Overall dimension in mm	80 x 383 x 1092
Material	AISI 304
Material thickness in mm	1,25
Installation height in mm	1432
Product load in N	1000
Gross weight in kg	20.00
Net weight in kg	16.00
Weight, pallet	225.00
Pcs per pallet	10
Design	Odd Thorsen

Installation

Drill holes in the wall using the fixing bracket as a drilling template. Fix the bracket to the wall and hang the panel onto the bracket. Secure with the bottom screw.

Installation Divider wall

Ensure that you have all the parts before assembly begins.

Drill holes in the wall using the fixing bracket as a drilling template.

Fix the bracket to the wall and hang the panel onto the bracket.

Secure with the bottom screw.

SPARE PARTS:

Equipment bag: YMX06

Screw M6 x 50: 86139

INTRA PRODUCTS OF STAINLESS STEEL

In order for your Intra stainless steel product AISI304

to retain its original quality and appearance we recommend regular cleaning. Use mild soap or cleaning products specifically designed for stainless steel and clean water. Then wipe the surface with a drycloth.

Never use detergents containing chlorine, iodine, fluoride or abrasives on stainless steel.

Also avoid contact with acid solutions and other substances incompatible with stainless steel.

Remember that food and skin care products may contain such substances, e.g. ketchup, juice, salt, certain cleansers, nail polish, etc. Promptly remove spills of such products.

Observe the following:

* Do not allow water or other liquid to dry in. This is to avoid staining the surface.

* Even though stainless steel can withstand harsh treatment, it can easily be scratched by sharp objects. For products with normal, polished (brushed) finish, this will be very visible when the product is new, but after a period of use, this will be negated as the steel loses its lustre. For products with satin and polished finishes, the scratches will always be visible. Never use scouring powder or steel wool on stainless steel. In addition to scratching the steel, wire wool will leave behind small particles that may develop into
