Description

New! Single bowl in polished stainless steel with PureClean surface treatment for extra hygiene and cleanliness. The treatment is inspired by nature - especially the Lotus effect where a flower's leaves repel water and self-cleans. The treatment prevents dirt particles from sticking to the surface. You should be aware that the surface treatment disappears over time.

An elegant bowl that gives your table top the stylish touch and personality that we all want in our kitchens.

For inset, under- and flush mount. Supplied with manual basket waste and overflow. Including water trap.
